About the Wildau-Kharkiv-IT-Bridge (WKITB)

Wildau-Kharkiv-IT-Bridge (WKITB) is a project in the DAAD programme "Ukraine digital: Ensuring academic success in times of crisis (2022)". WKITB aims to support Ukrainian lecturers and students by providing a digital teaching and learning platform. It brings together 60 lecturers from eight universities in Kharkiv in the field of IT with thousands of students from all over Ukraine.

DevOps Basics

Credit Points: 5 ECTS

Study program(s): 121 Software Engineering,
122 Computer Science,
123 Computer Engineering,
124 System Analysis,
125 Cybersecurity,
126 Information Systems and Technologies

The purpose of the course: to provide knowledge about the basic concepts, basics and tools of network equipment, applications and services. Application of the Agile approach to eliminate organizational and time barriers between development teams and other participants in the software life cycle (testers, administrators, technical support). Course objective: to provide practical skills in using automation tools to improve the efficiency of software development and operation processes through their continuous integration and active interaction of subject matter experts.

associate professor Yuliia Kuznetsova
National Aerospace University – "Kharkiv Aviation Institute"
